Verdura Links

Par 73 – 6763 metres / 7396 yards

Renovated and restored under the expert supervision of original course architect Kyle Phillips, Verdura Links provides plenty of unforgettable moments throughout the round.

Darting away from the clubhouse, highlights later in the round include the sixth hole, which requires a carefully-placed tee shot to avoid water on the left and right, while a fairway bunker lurks on the right side. Once that is safely negotiated, an undulating green is guarded by two bunkers and more water at the front – and all with the beach and the lapping waves just a few steps away at the back of the green.

Verdura Shore

Par 70 – 6547 metres / 7160 yards

There is no gentle opening on the Verdura Shore, with three lengthy par-fours to start the round, before the first of five par-threes puts your accuracy to the test.

Challenging greens will examine the putting skills at every turn and as the front nine winds its way up through the estate, the back nine makes its way down to the Mediterranean with some exceptional views of the ocean.

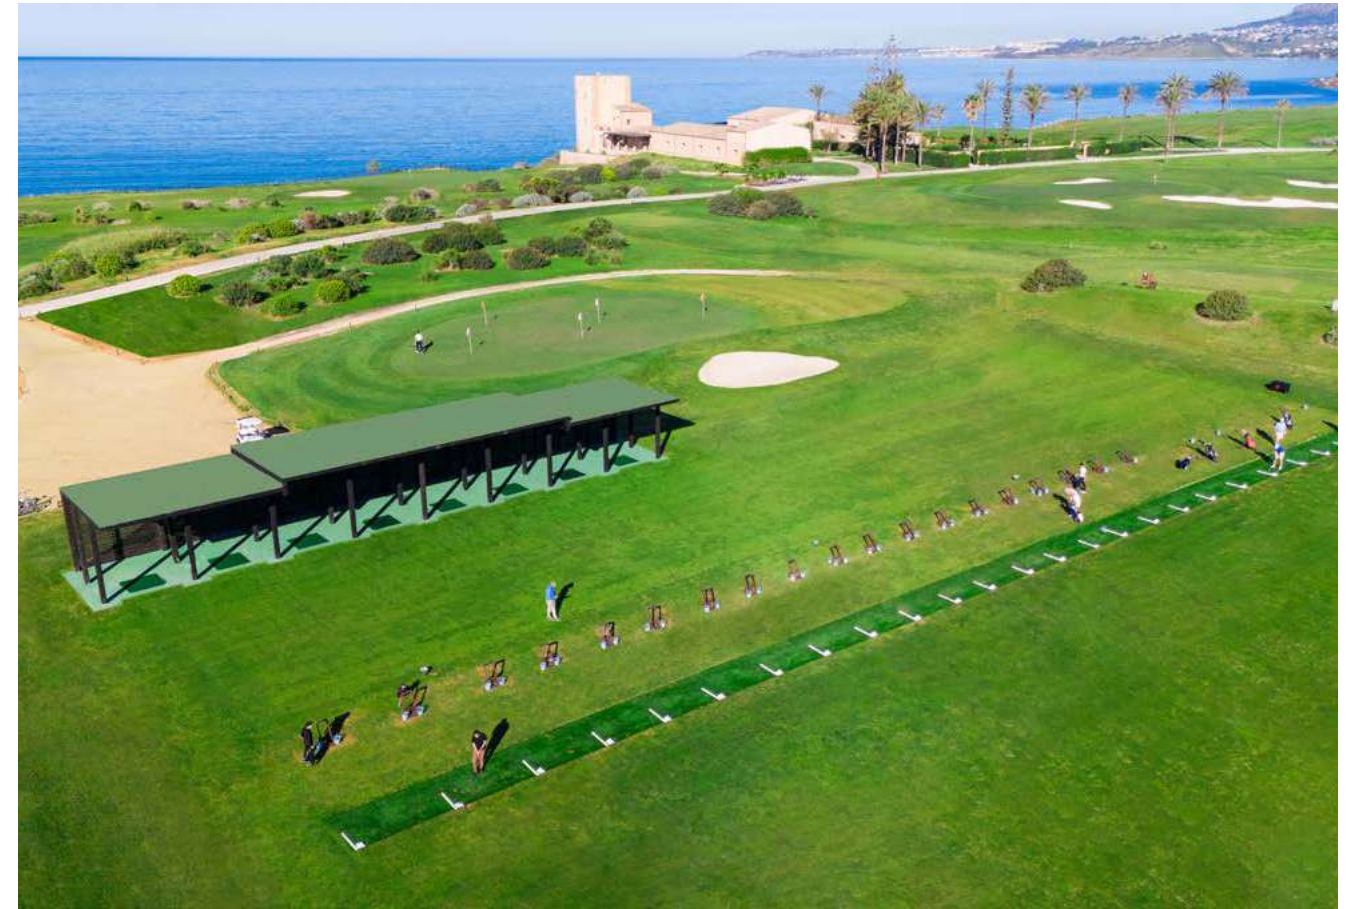

THE GOLF ACADEMY

Whether improving your game, or playing for the first time, as a guest at Verdura you will find the following on offer:

- A menu of tuition options, from one-to-one private lessons to group clinics, on the driving range or the courses
 - Dedicated golf programmes for kids and teenagers
- Using the latest in analytical technology, our team of golf coaches will precisely pin-point the areas of your game that needs improvement and along with you, we will create long-lasting solutions to take your game to the next level. Whether this be long game, short game or putting, we have the solutions
- A Performance Centre with two studios, to practice the short game or full swing with computer analysis and on-going improvement plans
- A double-ended driving range designed to accommodate groups of all sizes, and students of all abilities, 3 chipping and putting greens and 3 practice bunkers
 - We also have complimentary range balls for guests

PERFORMANCE CENTRE

At our Performance Centre, golfers at all levels can take advantage of cutting-edge technology usually only available to Tour players looking to refine their game. On the Driving Range across two studios, our experts will guide you through detailed screenings and analyses to precisely identify areas for improvement, offering bespoke solutions.

Trackman

With its phenomenal accuracy, Trackman is the preferred club and ball radar system for touring golf professionals and coaches around the world. In a standard lesson, we use Trackman and Video Analysis to build a clear picture of your game, uncover problem areas, and develop strategies to improve your play. We also use Trackman in our club fitting protocol to analyse potential improvements in your golf bag setup.

Sportsbox AI

Sportsbox AI offers a lesson experience that will transform your swing. Using advanced algorithms to assess your movements at a biomechanical level, its kinetic motion-analysis converts your swing videos into 3D models, providing real-time corrective feedback. A comprehensive set of metrics, including torso rotation, pelvic swing, and kinetic sequencing, are captured and presented in a clear format. These parameters allow you to visually and physically identify weaknesses, enabling targeted training and measurable progress.

HackMotion

HackMotion is a golf swing analyser and wrist angle training aid. Through the golf wrist sensor and app, it provides insightful wrist data and feedback after each swing to help our golfers understand and fix their faults.

ADDITIONAL TECHNOLOGY

Smart2Move force plates

Creating a powerful and consistent golf game starts ground-up, so how you use the ground can have a huge impact on your game. With the use of Smart2Move's unique 1D wireless & 3D Dual Force Plates, these usually invisible forces will become strikingly evident, putting you on the road to improving your body motion and consequent biomechanical performance.

SAM Puttlab

With the aid of the Science and Motion (SAM) PuttLab, putting no longer holds any secrets. Through a detailed and precise analysis of your stroke, we will initiate the steps for you to successfully putt on the line, roll the ball better and greatly improve your distance control.

Blast Golf

Blast Golf is a stroke and swing analysing sensor that attaches to your putter or golf club and connects to your smartphone or tablet, sending an impressive number of data points and metrics to help quickly identify and highlight areas in need of improvement.

JUNIOR GOLF ACADEMY

Verdura junior Golf Academy is a fun way for our younger guests to discover the great game of golf. It's ideal for 6 to 16-year-olds.

We'll provide the perfect introduction and foundations for those that want to start playing golf to develop their skills. For our younger guests who are already building golfers, we'll help them improve their game. Our courses cover every aspect of golf, from practical skills such as hitting the ball, chipping, putting, bunker shots, playing on the par-3 course, to the etiquette and rules of golf.

EUROPEAN TOUR EVENTS

“Verdura is such a scenic course with so many great views it’s easy to get carried away, so it’s very important to concentrate on every single golf shot.”

Thorbjørn Olesen, 2012 Sicilian Open Winner

“It’s an unbelievable sight, my room is unbelievable and the golf course is a paradise – it is a very complete resort.”

Álvaro Quirós, 2017 Sicilian Open Winner

“I love this place. The golf course is awesome and you get a view over the Mediterranean on nearly every hole. The greens are really good and these are probably the best fairways that we have played all year.”

Joaquin Lagergren, 2018 Sicilian Open Winner

Set in a scenic valley on Sicily's southwestern coast, Verdura Resort is just 15 minutes from the seaside town of Sciacca and the historic hilltop ruins of Agrigento.

CULTURE

Sicily is an island of volcanic coastlines, idyllic beaches, historic cities, Greek temples and Roman sites. And of course, one of the highlights is also its food, with endless restaurants serving up exquisite Sicilian cooking with generations-old recipes.

Born out of turmoil, Sicily was occupied for millennia by the Greeks, Romans, Arabs and French, all of which has left a visible mark on the island. From the Valley of the Temples near the town of Agrigento, with its extraordinary ancient Greek architecture, to the marvelling at the Scala Dei Turchi rock formation aboard a yacht and exploring Sciacca's historic treasures. Sicily offers endless opportunities to get off the beaten track.
