

VERDURA RESORT
SICILY

A ROCCO FORTE HOTEL

Golf in Sicily

Verdura Resort presents a golf experience unlike any other. Our links style courses, designed by Kyle Phillips, use the natural green contours of the landscape and are lined with orange and olive groves. Warmed by the Mediterranean sun and refreshed by the sea breeze, the courses are free from any buildings, offering uninterrupted views of the azure waters from the undulating greens.

Guests will experience the Rocco Forte Hotels philosophy across every aspect of Verdura, from stylish accommodation to world-class spa facilities and elegant restaurants and bars. Other attractions include tennis courts and water sports, dedicated kid and teen clubs and guaranteed outstanding service.

Home of the European Tour's Rocco Forte Sicilian Open, Verdura provides golf on a grand scale, with the personal service and attention to detail more usually associated with a private club. Designed to challenge golfers of all levels, the courses are built on spectacular playing surfaces to provide golfing conditions of the highest level.

Verdura East Links

Par 73 – 6763 metres/7396 yards

Renovated and restored under the expert supervision of original course architect, Kyle Phillips, the East Links course provides plenty of unforgettable moments throughout the round.

Darting away from the clubhouse, highlights later in the round include the sixth hole, which requires a carefully-placed tee shot to avoid water on the left and right, while a fairway bunker lurks on the right side. Once that is safely negotiated, an undulating green is guarded by two bunkers and more water at the front – and all with the beach and the lapping waves just a few steps away at the back of the green.

Verdura West Shore

Par 70 – 6547 metres/7160 yards

There is no gentle opening on the West Shore course, with three lengthy par-fours to start the round, before the first of five par-threes puts your accuracy to the test.

Challenging greens will examine the putting skills at every turn and as the front nine winds its way up through the estate, the back nine makes its way down to the Mediterranean with some exceptional views of the ocean.

"Kyle Phillips designs courses to suit the environment they find themselves in. His approach to golf courses is similar to our approach to hotels."

Sir Rocco Forte, Chairman and CEO, Rocco Forte Hotels

The Golf Academy

Whether improving your game, or playing for the first time, as a guest at Verdura you'll find the following on offer:

- A menu of tuition options, from one-to-one private lessons to group clinics, on the driving range or the courses
- Dedicated golf programmes for kids and teenagers
- Using the latest in analytical technology, our team of golf coaches will precisely pin-point the areas of your game that needs improvement and along with you, we'll create long-lasting solutions to take your game to the next level. Whether this be long game, short game or putting, we have the solutions
- A Performance Centre with two studios, to practice the short game or full swing with computer analysis and on-going improvement plans
- A double-ended driving range designed to accommodate groups of all sizes and students of all abilities, 3 chipping and putting greens and 3 practice bunkers
- We also have complimentary range balls for guests

Performance Centre

At our Performance Centre, golfers at all levels can take advantage of cutting-edge technology usually only available to Tour players looking to refine their game. On the Driving Range across two studios, our experts will guide you through detailed screenings and analyses to precisely identify areas for improvement, offering bespoke solutions.

Trackman

With its phenomenal accuracy, Trackman is the preferred club and ball radar system for touring golf professionals and coaches around the world. In a standard lesson, we use Trackman and Video Analysis to build a clear picture of your game, uncover problem areas, and develop strategies to improve your play. We also use Trackman in our club fitting protocol to analyse potential improvements in your golf bag setup.

Sportsbox AI

Sportsbox AI offers a lesson experience that will transform your swing. Using advanced algorithms to assess your movements at a biomechanical level, its kinetic motion-analysis converts your swing videos into 3D models, providing real-time corrective feedback. A comprehensive set of metrics, including torso rotation, pelvic swing, and kinetic sequencing, are captured and presented in a clear format. These parameters allow you to visually and physically identify weaknesses, enabling targeted training and measurable progress.

Additional Technology

SAM Puttlab

With the aid of the Science and Motion (SAM) PuttLab, putting no longer holds any secrets. Through a detailed and precise analysis of your stroke, we will initiate the steps for you to successfully putt on the line, roll the ball better and greatly improve your distance control.

Blast Golf

Blast Golf is a stroke and swing analysing sensor that attaches to your putter or golf club and connects to your smartphone or tablet, sending an impressive number of data points and metrics to help quickly identify and highlight areas in need of improvement.

Junior Golf Academy

Verdura Junior Golf Academy is a fun way for our younger guests to discover the great game of golf. It's ideal for six- to 16-year-olds.

We'll provide the perfect introduction and foundations for those that want to start playing golf to develop their skills. For our younger guests who are already budding golfers, we'll help them improve their game. Our courses cover every aspect of golf, from practical skills such as hitting the ball, chipping, putting, bunker shots, playing on the par-3 course, to the etiquette and rules of golf.

"I love this place. The golf course is awesome and you get a view over the Mediterranean on nearly every hole. The greens are really good and these are probably the best fairways that we have played all year."
